

# Educational Video Screenwriter

## Summary

Nanogirl Labs brings together scientists, educators, communicators and storytellers to work on creating impactful educational resources. We are working as part of an international team to develop a programme of science education resources for teachers in Pacific Island schools across The Cook Islands, Samoa, Solomon Islands and Vanuatu.

We are seeking an experienced screenwriter to create engaging scripts for instructional videos, for an audience of science teachers in the Pacific Islands, specifically Samoa, Solomon Islands, Cook Islands and Vanuatu.

The successful applicant to this role will be an experienced writer, who has written for non-fiction or instructional content before. The successful applicant will bring their knowledge of Pacific culture and languages to this project.

This is a part-time position with flexible hours.

## Responsibilities

- Write a range of scripts, developed using supplied material, for a range of short, engaging instructional videos. These scripts will be suitable for delivery by an experienced presenter.
- Work with our content development team to ensure that your work is contextualized for an adult audience in the Cook Islands, Samoa, Solomon Islands and Vanuatu.
- Work collaboratively with our team to implement feedback.
- Be available to attend an Auckland-based filming session, if possible, to offer on-set support.

## Skills profile

- Experience in writing for the screen, with special emphasis on experience writing for instructional, educational spoken dialogue.
- Knowledge and/ or experience writing spoken dialogue for explaining step-by-step instructions.
- Excellent written and verbal communication skills.
- Technically proficient and able to work in a team who communicate primarily through online channels.
- Ability to deliver high-quality work to a deadline.
- Ideally, located in or close to Auckland, or be willing to travel, at our expense, to be present in Auckland when required.

## To apply for this position

To apply for this position, please send your CV and a cover letter addressed to Kate, to [info@nanogirllabs.com](mailto:info@nanogirllabs.com) by April 30th 2021.
